December 18, 2006

AMENDMENT A

TO THE COMMISSIONER OF PATENTS AND TRADEMARKS,

Dear Sir/Madam:

In response to the Office Action dated 10/04/2006, please enter the following amendments:

IN THE CLAIMS:

- 1.(Currently amended) A self wiping toiletry device comprising:
- a housing of a substantially "L" shaped form having a stem with a first end and a base in the form of a mandrel with a second end and a bottom side; and
 - a hand grip substantially near said stem and mounted with said housing; and
 - a release button substantially near said first end of said stem; and
 - a jaw system comprising a retainer arm pivotably mounted substantially opposite said first end and mated with said bottom side ~~near said base~~ and capable of opening with said bottom side sufficiently to fit one or more rolled pieces of toilet paper ~~within said jaw system~~ around said mandrel and between said retainer arm and said bottom side on or near at least a portion of said second end and capable of closing with said bottom side sufficiently to hold said toilet paper; and
 - a linkage connected between said jaw system and said release button whereby opening movement of said release button causes said jaw system to open and create a gap between said bottom side and said retainer arm, thereby allowing a user to install and hold said toilet paper
